**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the term “minerals” renders the claim indefinite. It is unclear whether more than one mineral is required. To further prosecution the term “minerals” will be interpreted to mean one or more minerals.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Saito et al. (EP 1 364 585 A1).

Regarding claims 1-2, Saito et al. disclose an acidic beverage comprising acid-soluble soybean protein and sodium citrate and has a pH value of 3.8 (Abstract, p. 1/Example 1/[0037], p.12/Example 10/[0065]).

Regarding claim 3, Saito et al. disclose all of the claim limitations as set forth above.

Further, sodium citrate is known to be water-soluble.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Takanori et al. (JP 10-4921 A – Abstract) teach a mineral solubilizing material useful for a protein enriched beverage but the reference does not teach an acidic beverage comprising an acid soluble protein.
